IN THE UNITED STATES PATENT AND TRADEMARK OFFICE BEFORE THE  
TRADEMARK TRIAL AND APPEAL BOARD

In the matter of Trademark Application Serial Number 86170911 for the mark ZEUTERIN  
Published in the Official Gazette on June 3rd, 2014,

Zeuter, Inc. v. Ark Sciences, Inc.

NOTICE OF OPPOSITION

Zeuter, Inc. is a Nevada Corporation with business mailing address Post Office Box 387, Zephyr Cove, NV 89448. Zeuter Inc. believes that it will be damaged by registration of the mark shown in the above-identified application, and hereby opposes the same.

The grounds for opposition are as follows:

- 1) Immoral or Scandalous Matter: There is some question in the media whether the so-called Zeuterin process is effective and harmless as portrayed. Thus the use of the term "zeuter" as a synonym for "neuter" is insulting and damaging to the name and reputation of the Nevada Corporation, Zeuter Inc., established in 2009.
- 2) Consists of a signature of a living individual: The word Zeuter was coined by myself, Nick Slater and my McMaster University Lab Partner, Alfred Zeuner, for a Canadian partnership back in 1980 because Zeuter sounded better than Slaner. Since that time I alone incorporated an Ontario Corporation, Zeuter Development Corporation, back in 1993 once Mr. Zeuner relinquished any continuing interest in the name Zeuter. Ultimately, I alone incorporated Zeuter, Inc. in Nevada in 2009. As such, all things Zeuter reflect the corporate me, hence my signature and as such, I am damaged by the association of my long standing and well known computer and internet business with chemical castration of dubious nature.
- 3) Consists of the name of an existing corporation: The rights of Zeuter Inc., a Nevada Corporation involved with computers, internet and solar energy, are equivalent to that of a living individual, and as such, the use of the name "zeuter" as noun or verb in relation to a chemical castration process of dubious nature damage the good name and long history of Zeuter Inc. and may cause confusion in the marketplace.
